Software 3: MIDI Ox

Downloads Page: www.midiox.com

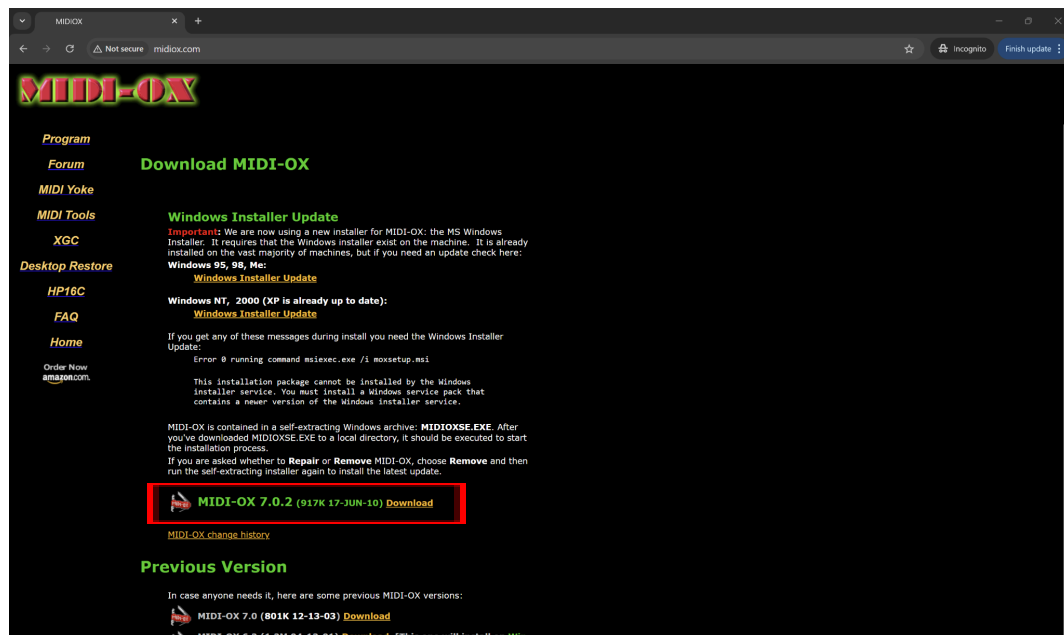

1. Visit www.midiox.com. Please allow your Web Browser (Chrome) to continue to access the site.

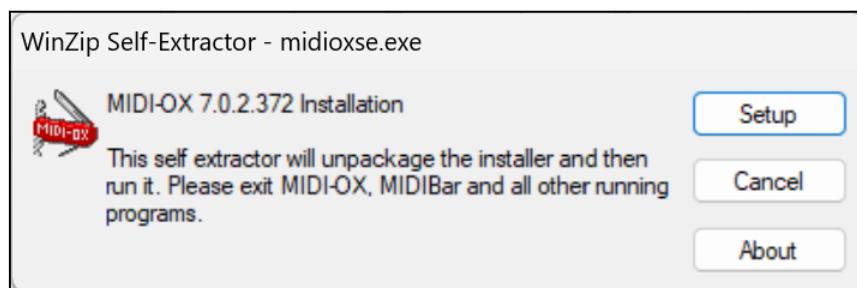

2. Click "Download: MIDI-OX 7.0.2".

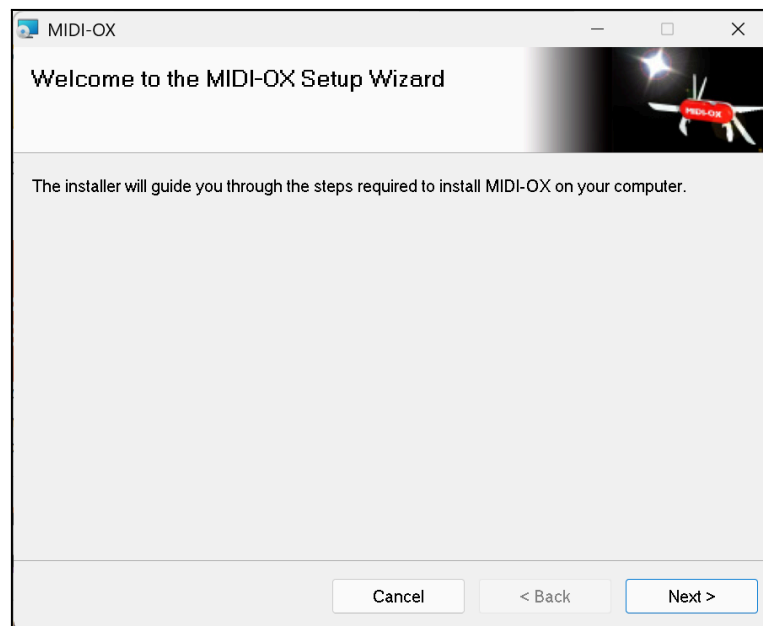

3. Click “Download”.

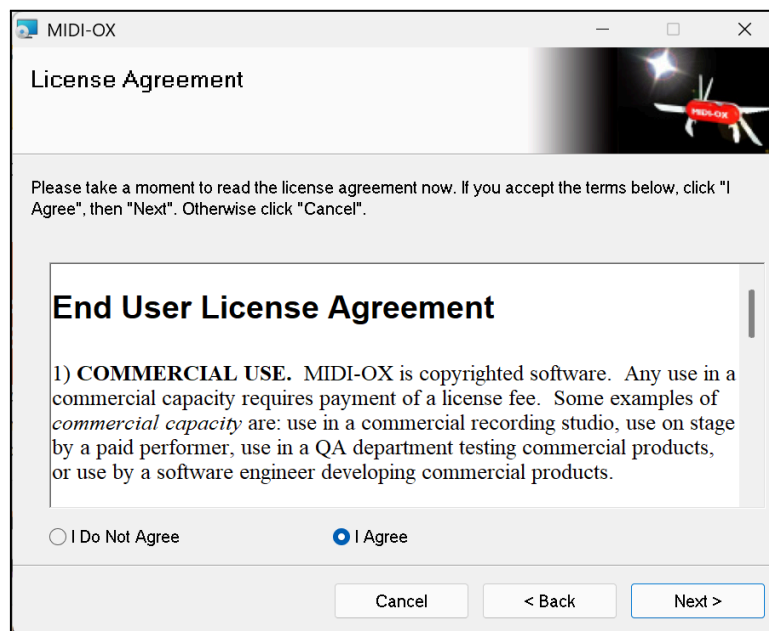

4. Run the Installer. Please allow the installer process when you get a warning from the operating system. Click “Setup”.

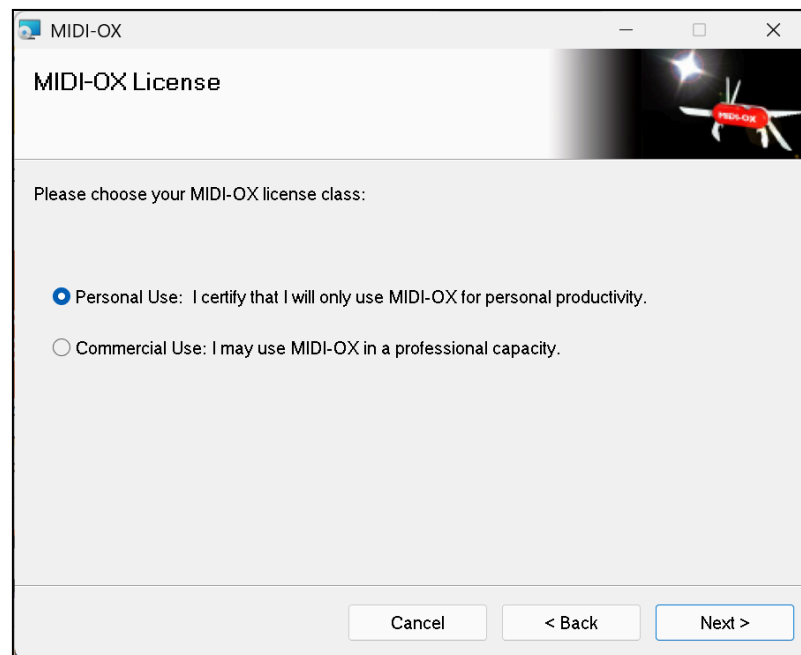

5. Click “Next”.

6. Select “I Agree” and click “Next”.

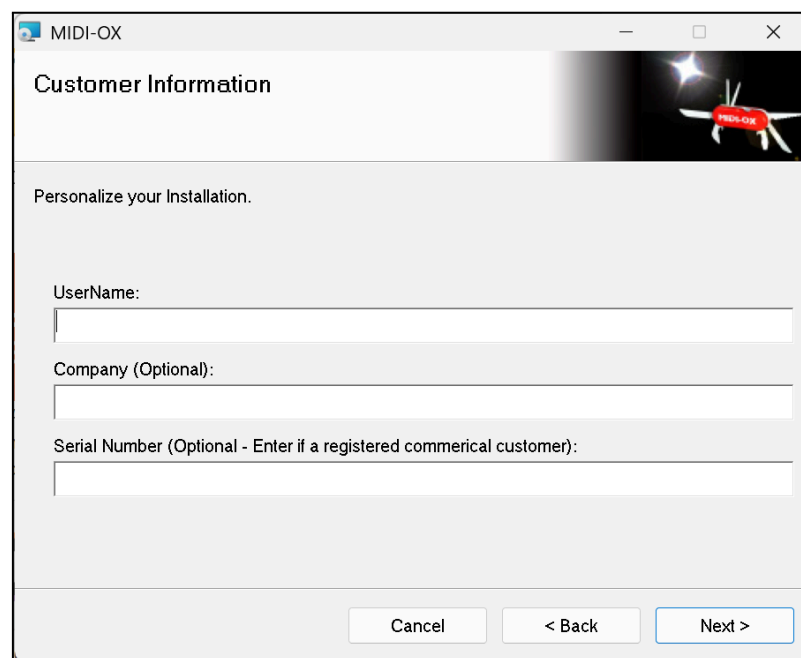

7. Select "Personal Use: ..." and click "Next".

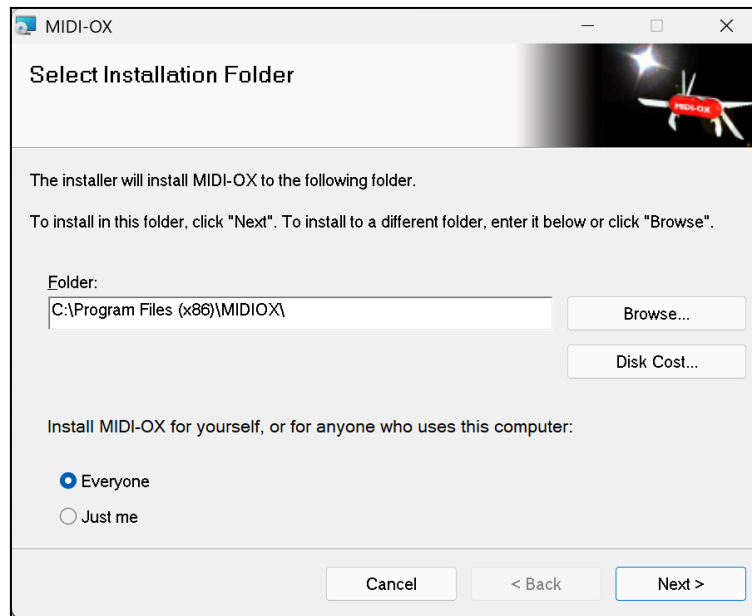

The image shows a Windows-style window titled "MIDI-OX" with a standard title bar (minimize, maximize, close buttons). The window content is titled "MIDI-OX License" and features a decorative graphic on the right side showing a red MIDI-OX interface box with a robot-like figure. The main text asks the user to "Please choose your MIDI-OX license class:". There are two radio button options: "Personal Use: I certify that I will only use MIDI-OX for personal productivity." (which is selected) and "Commercial Use: I may use MIDI-OX in a professional capacity." At the bottom of the window, there are three buttons: "Cancel", "< Back", and "Next >".

8. Write a suitable name at the UserName input box for your computer and click "Next".

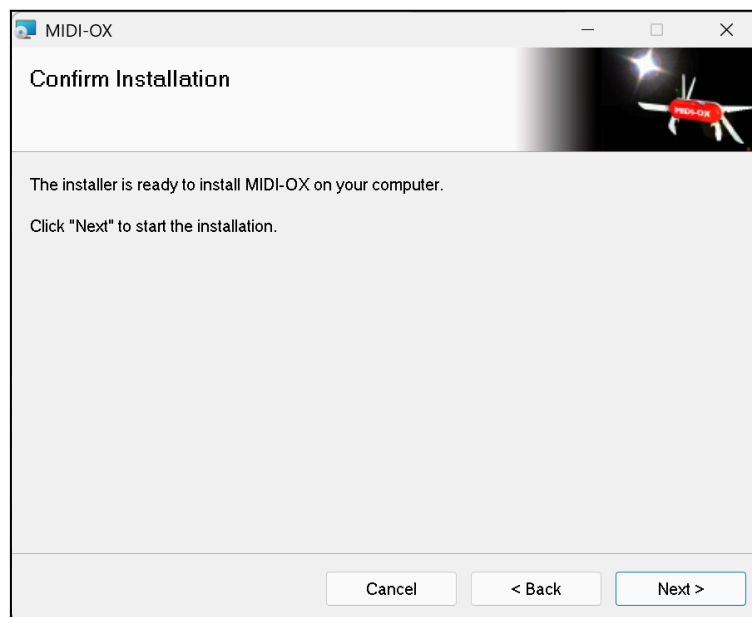

The image shows a Windows-style window titled "MIDI-OX" with a standard title bar. The window content is titled "Customer Information" and features the same decorative graphic as the previous window. The main text asks the user to "Personalize your Installation.". Below this, there are three input fields: "UserName:" (with a text box), "Company (Optional):" (with a text box), and "Serial Number (Optional - Enter if a registered commerical customer):" (with a text box). At the bottom of the window, there are three buttons: "Cancel", "< Back", and "Next >".

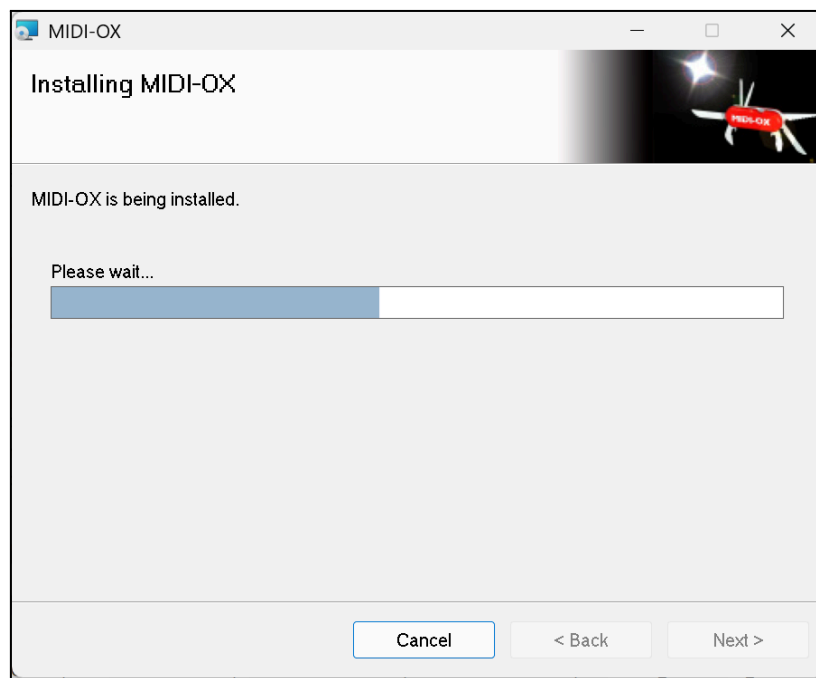

9. Select a suitable destination folder and user option for your computer. Click “Next”.

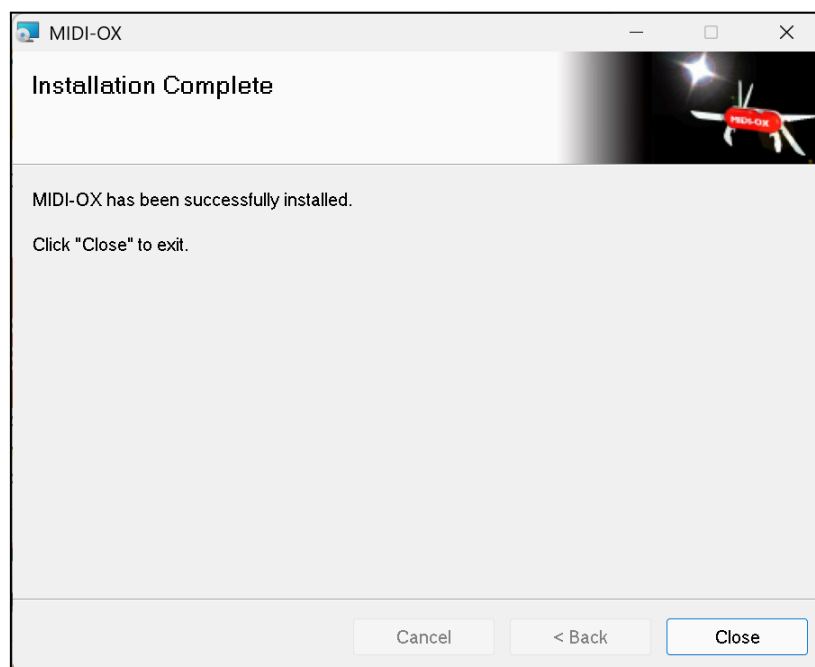

10. Click “Next”.

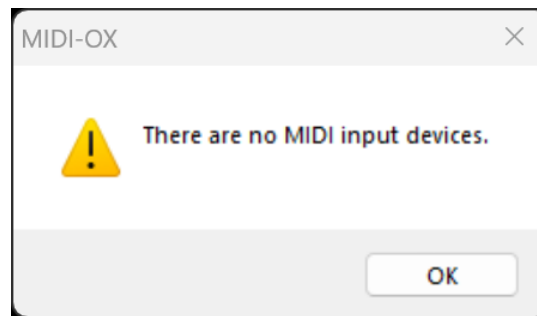

11. Installation in process.

12. All the files necessary to run the MIDI Ox software will be extracted and installed to the assigned destination folder. Please make sure you have the MIDI Ox icon on your desktop. Click "Close".

13. Run MIDI Ox. Please allow your computer to run the software if you get a warning. Click "OK" if you get this window.

14. You should get an interface like this.
